# EZFacility Offers a Simple User Interface Delivered Through an Internet-based Software Service!

**Trainer Scheduling** - TMS provides club owners with the flexibility to track personal training schedules through daily, weekly or monthly views on a per-facility basis.

**Training Packages** - An unlimited number of packages can be entered to meet your clubs specific requirements. TMS automatically reduces the number of sessions remaining after each client's workout.

**Performance Report** - Club owners can generate detailed performance & financial reports on a per facility, trainer or client basis, providing greater management oversight & control over the profitability of your club.

**Member Management / Recurring Billing** - Our optional Membership module supports the key features and functionality required to manage the recurring billing and membership details for any size fitness facility.

## Join our Growing List of Satisfied Customers!

"EZFacility provides our clubs with a simple-to-use solution that handles every facet of the scheduling and management needs within our Personal Training departments. It has helped us to better manage our most precious & profitable resources – our clients, our staff and our facilities."

*Bill Austin - Gold's Gym Lagrange, Newburgh & Fishkill*

"I would absolutely recommend EZFacility to any health club or gym looking to streamline their operations, improve customer satisfaction, & most importantly - increase their bottom line. We can't live without it!"

*Skye Kaiss - Gold's Gym Regina*

"EZFacility TMS is a great help for club owners who need to track a trainer's schedule, a customer's sessions...and better manage their business."

*Wes Shemwell - Anytime Fitness Cumming*

"Your software and its accompanying service are - by far - the best purchase I have made for my club in a long time."

*Chris Teufel - The Firm Health & Fitness*
